

Optimized Cyber Risk Quantification

Transform the way you manage cyber risk.

▶ Visualize

Predict probable attack routes by leveraging AI and data science with our SaaS platform.

▶ Mature

Embrace transformation and unlock your organization's full potential with confidence.

▶ Quantify

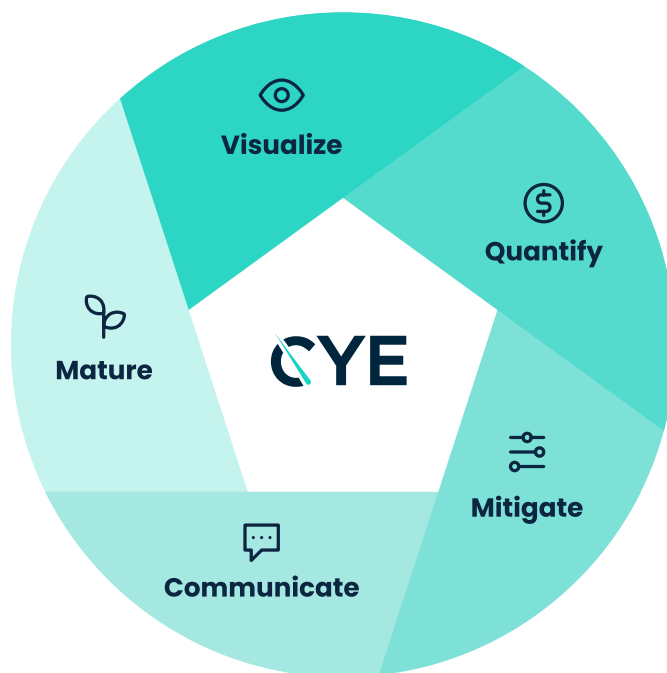

Determine the potential financial consequences of cyber risk in dollars, as well as the cost of remediation.

▶ Communicate

Clarify and present your cyber risk in business terms to executives, security teams, and partners.

▶ Mitigate

Focus your resources on addressing the most critical threats that truly pose risk to your business assets.

“Hyver not only fortifies our defenses and identifies the true threats to our company, but its cyber risk quantification capabilities have transformed our approach to cyber risk management.”

Introducing Hyver

Using attack route visualization, cyber risk quantification, and risk mitigation planning, CYE's optimized cyber risk quantification platform helps you:

- ▶ Understand the true potential cost of cyber events
- ▶ Effectively communicate with executive teams
- ▶ Improve cyber risk investment decisions
- ▶ Prioritize remediation strategy and planning

Introducing Our Cyber Experts

CYE combines its cutting-edge technology with dedicated professional guidance and services provided by world-class cybersecurity experts, including:

- **Organizational Assessment:** includes comprehensive evaluations, red and purple team operations, and penetration testing.
- **Strategic & Advisory:** includes management IR readiness, cybersecurity due diligence, and CISO as-a-service.
- **Emergency & Operations:** includes crisis management, incident response, and cyber threat hunting.

The Benefits of Working with CYE

- 96%** of customers' business-critical attack routes are blocked within six months
- 88%** reduction in remediation time following a cyber incident.
- 87%** of customers improve ROI on their security budget.

“CYE’s revolutionary approach provides the visibility, insights, and guidance to improve cybersecurity maturity. This is accomplished while optimizing budget and mitigating risk using a mathematically proven process.”

About CYE

CYE's optimized cyber risk quantification platform and expert guidance transform the way organizations manage cybersecurity. Using AI, machine learning, and innovative technology, CYE visualizes attack routes, quantifies, mitigates, and communicates cyber risk, and matures organizational cybersecurity posture. In doing so, CYE provides clear and relevant insights that empower companies to make effective cybersecurity decisions. The company serves organizations in multiple industries globally. Founded in 2012, with headquarters in Israel and operations around the world, CYE is funded by EQT Private Equity and 83North.
